TO: Joe Petrilli
FROM: Rene Van Someren *RVS*
SUBJECT: Illinois/Eckhart Report
Mendota/Trekker Chemical Co.

A Preliminary Assessment form (USEPA Form T2070-2) has been partially completed for the subject site. This site was listed on the Illinois/Eckhart Report and has been researched pursuant to TDD# F5-8005-3.

In reviewing the Preliminary Assessment form and general background information, it is suggested that the following steps be taken to determine the need for a full field investigation.

1. Arrange for an off-site/on-site inspection & determine need for off-site/on-site sampling (soil & water).
2. Collect up gradient/down gradient well samples if possible.
3. Complete Preliminary Assessment form based on information obtained above.
4. Determine need for full field investigation upon receipt of analysis results.
